Employment Update: Change to Local Indoor Mask Mandates

Yesterday, Sonoma County announced that it is rescinding the face mask exemptions for fully vaccinated stable groups of people. Sonoma County joined four other counties (Alameda, Contra Costa, Marin and San Francisco) in making this change following a sharp increase in local COVID-19 cases and documented spread among fully vaccinated people. These counties will now follow the state of California's recent mask mandate.

Starting today, everyone must wear a mask in all indoor public settings, including workplaces, gyms, and churches, regardless of vaccination status.
